

TOUSHAR

TOUSHAR - SEASON I
Digital Single Releases:

WHO WE ARE

TOUSHAR is an emerging band collective based in Bern, Switzerland. Long time music and album producer Remo Häberli (Posthumanbigbang, Chelsea Deadbeat Combo, E-L-R) and established artist and musician Philipp Thöni (BlackYard, Pless, Unhold) joined up to write their own unique and updated take on contemporary alternative rock and post metal, spiced up with their inclination for electronic soundscapes and club music.

STATUS QUO

As a first sign of life, six singles were produced, which started to be released on digital platforms in intervals of six to eight weeks since June 2022, so far independently. At the end of this first cycle there will be a beautiful 12" vinyl, which we plan to release in summer/fall 2023. We also found two great companions and musicians in Remo Röschli (Palmer) and Nicolas Graber (Nihil0) and have been rehearsing as a band ever since, getting ready to take the stages in spring 2023. There will be a fifth member for the live implementation of keys, synths and samples.

WHAT IT SOUNDS LIKE

Danceable, energetic and captivating, TOUSHAR's music is ideal for stages in sweaty clubs. The songs have a huge dynamic range grabbing you right from the start and takes you on a wild journey to their ecstatic finale – sophisticated, sometimes wild, but always in flux. The mood is always somewhere between over the moon and down in the dumps, like a well-written episode of a dark TV series. TOUSHAR also blends in their own influences of rock and metal music from their youth with modern contemporary trends to create a unique, powerful and driving sound. The polyphonic vocals and pop-influenced arrangements make TOUSHAR's music accessible to a broad audience beyond the saturated niches.
