TOUSHAR 'SEASON I'

Having released 6 songs digitally TOUSHAR now comes forth with a first physical release – 'Season 1' featuring a previously unreleased track featuring local legend and vocalist BAZE, a moody song evoking thoughts of introspection and reflection.

TOUSHAR, now settled as a four-piece band gathered live experience, having played shows and festivals such as the acclaimed 'Up In Smoke', have continued to write new material and are eager to hit stages all around in the time coming. Aiming for an immersive live experience with a unique blend of post metal, alternative rock and complementary electronic elements.

There comes a time in a musician's career where one has to decide to produce material with a genre in mind or to reach down deep and explore a path that keeps one's attention in the long run. TOUSHAR doesn't shy away from using harmonic voice arrangements and indulge in catchy hooks paired with pummeling riffs and abrasive vocals.
